BIO:

Fostioner is born in 2009 in Madrid with the purpose of combining an extreme metal show full of interaction with the audience, with jokes, kidding around, crowd participation and singing, or even involving the people in different games previously prepared.

Since its establishment, Fostioner has been improving its show and gaining the attention of several specialized media such as “La heavy” (Mariskal Rock), “Los + mejores” and many more, which have published different reviews about our work (studio and live). Down below you’ve got links to different interviews and reports from different media.

The band’s first great achievement was that, in 2009 (two months after the establishment of Fostioner) reaches semifinals in the metalbattle of the “TAF hall” by the election of a specialized jury. Thanks to this achievement and to the recording of its first Ep Fostioner starts to be requested in several metal festivals all over Spain such as “Acroama summer fest” or “The shit Xmas fest”.

In June 2013 we release our first LP, named “Fostioner”, and we present it at the “Metalcry summer fest”.

Some of the reports about this event published by the specialized media:

<http://zombiewarmanagement.blogspot.com.es/2013/06/metalcry-summerfest-14-15-de-junio-del.html>

After that Fest and helped by the distribution of the LP all over Spain, Fostioner is requested by “Hueso management” to participate in the “Brutal South Tour 2013” Touring around several cities throughout Spain.

After many more gigs during the late 2013, Fostioner participates in the metalbattle in order to achieve playing in the great Metalfest in Mexico: “Heaven & Hell”. On January 24 Fostioner wins the first battle of the contest and qualifies to play at the final on February 14.
