## **BIOGRAPHY**

Nexus is an industrial gothic rock act formed at the end of 2009 by vocalist/guitarist and main composer Vlad Voicu and bassist Tony Di Marzio, with the intention of bringing together their love for alternative metal, gothic rock and electronic music/sampling elements.

Keyboardist Lorenzo "Il Diverso" Mastracci was quickly brought in to complete the core line-up of the band. Nexus started out playing various local shows with different drummers and eventually recorded and released "Death Of Art" EP and playing various shows in UK, promoting their independent release. After working on new material for their debut full-length album, in 2016, support musicians Diego Aureli and Daniele Di Gasbarro were recruited as live guitarist and drummer respectively. The album, titled "The Taint", will be released for Agoge Records in Autumn 2017.
